

Polska

Poland at Pioneers Festival 2019 –
summary

2019-05-21 14:03:00

Pioneers Festival - one of the leading startup innovative technology conference - took place last week in Vienna.

The Polish Agency for Enterprise Development, in the framework of the Polish ICT Promotion Program, organized a national stand, for the purpose of promoting Polish tech companies and star-ups from our country. This year's edition was a meeting place for over 2500 tech innovators and pioneering entrepreneurs from all over the world.

As in previous years, also this year the Pioneers Festival enjoyed a great interest among Polish startups and young companies, offering unique and innovative products and services. At individual stands, Poland was represented by 16 domestic companies. In total, both at the individual stands and at the national stand organized by PARP, 49 Polish startups presented their products and services.

During the event, apart from the promotion at the stands, Polish companies had the opportunity to take part in b2b meetings as well as numerous specialist conferences and discussion panels.
